

Graduate GIS Technical Support

Trade in Space specialise in developing cutting-edge solutions that empower businesses to navigate and comply with the rapidly evolving landscape of sustainability legislation. Our focus spans crucial areas such as deforestation, traceability, and environmental impact. As a team, our collective mission is to create a positive impact on the world. We achieve this by cultivating our individual expertise, fostering creativity, and generating innovative solutions and ideas to contribute to a meaningful cause. We are a hybrid team offering flexible remote working; however, we do host regular co-working days in Edinburgh and Glasgow.

Position Overview: This is a new role with significant potential for growth. We're looking for someone who can champion the use of geospatial insights for our customers. For many of our users, this may be their first time working closely with geospatial data and interpreting its results. As such, sometimes additional support is required, and it will be your job to address any challenges they face.

In this customer-facing role, you'll collaborate with colleagues across the business to ensure our customers receive exceptional support. Problem-solving abilities, strong communication skills, and keen attention to detail are essential for success in this role.

Responsibilities

1. Geospatial Analysis

- Debug/cleanse data using QGIS
- Manually validate results
- Liaise with clients regarding data processing and analysis.
- Keep meticulous records of communications.

2. Team Collaboration

- Work collaboratively with a team to deliver on group goals and targets.
- Maintain regular communication with the team to ensure milestones are met efficiently.

3. Communication

- Collaborate with cross-functional teams to understand project requirements and deliver high-quality solutions.
- Contribute to the team's growth by sharing knowledge, insights, and expertise.

Qualifications

- Proficiency in QGIS with a strong grasp of geospatial mapping concepts.
- Strong communication and collaboration skills.
- Self-motivated and able to thrive in a hybrid work environment.

- Ability to work effectively within tight deadlines.

Bonus (Not Essential)

- Spanish-speaking proficiency.
- Familiarity with Jira.

Perks:

- Flexible hybrid working environment.
- Flexible working hours around core meetings and events.
- Opportunity for growth and progression.
- Personal development budget to support your continuous professional growth.
- Company perks programme with discounts on big brand retail and travel.
- Opportunity to work with cutting-edge technologies in a forward-thinking startup.
- Join a close-knit team of environmentally minded individuals.
- £25,000 to £30,000

How to Apply:

If you are excited about the prospect of contributing to a startup with a mission and have the skills we're looking for, please submit your CV, portfolio, and a brief cover letter outlining your relevant experience to hello@tradeinspace.com.
